Table legs

Powder-coated aluminium

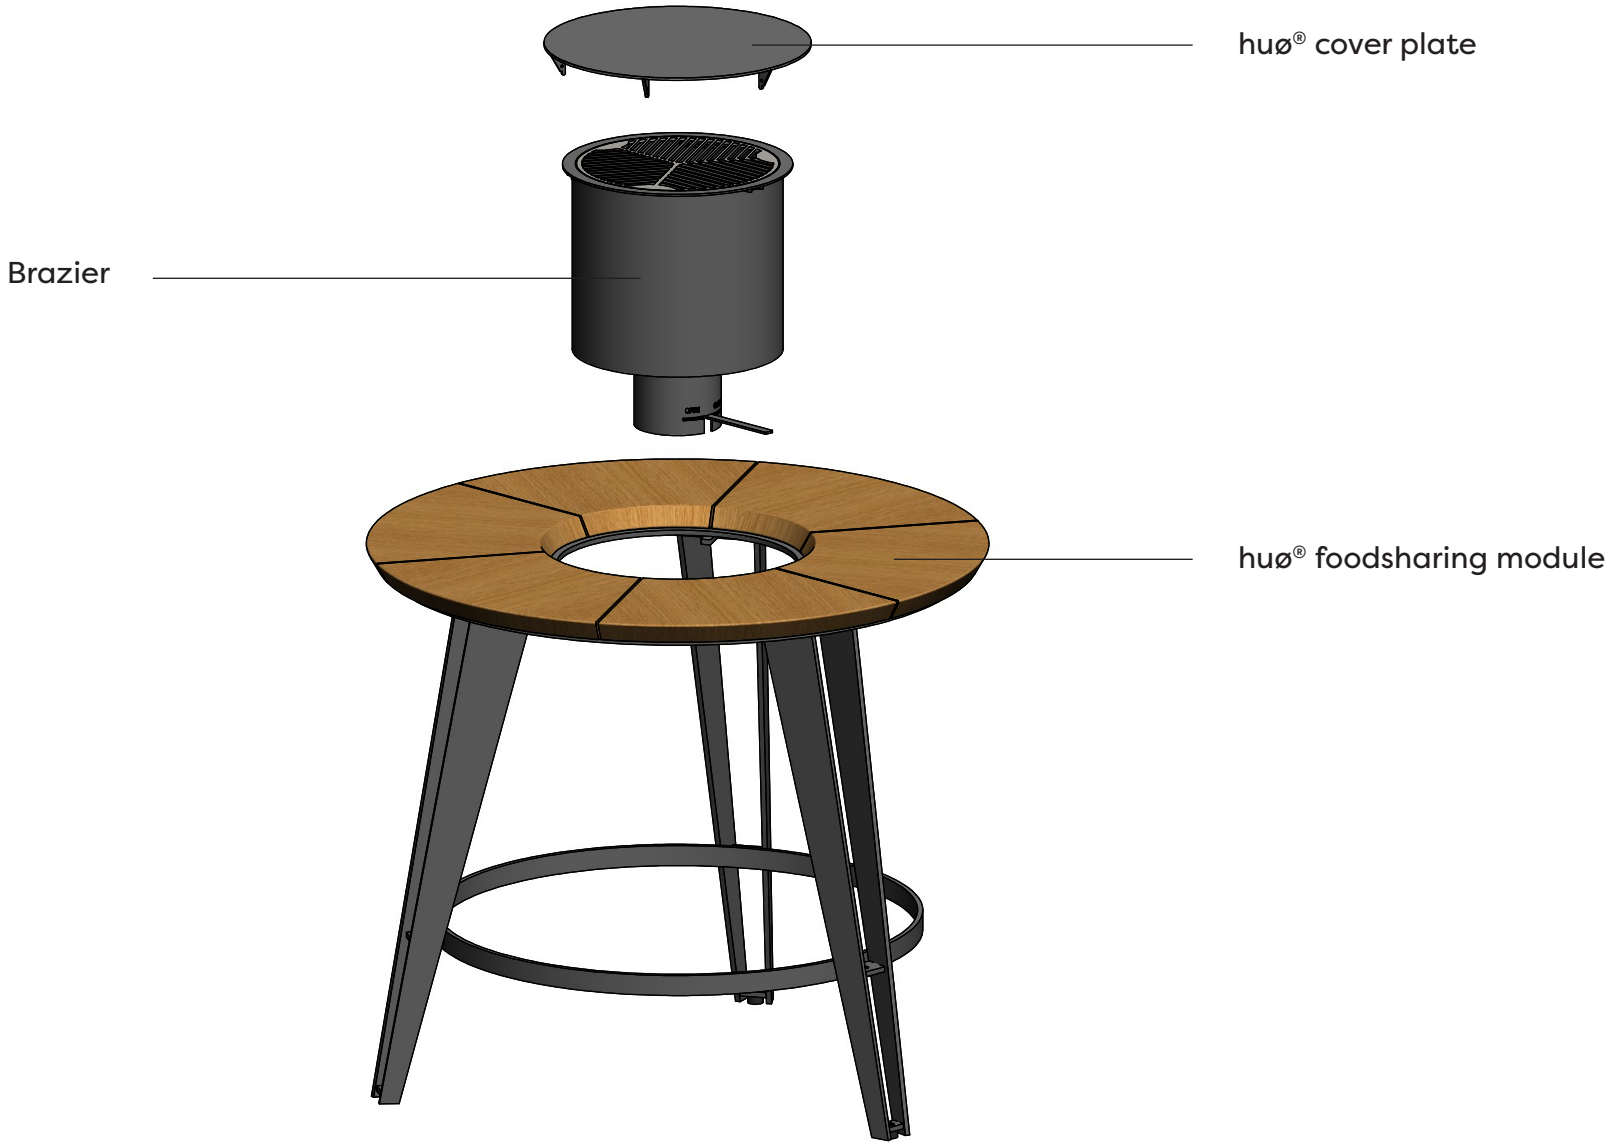
Protective feet

Rubber

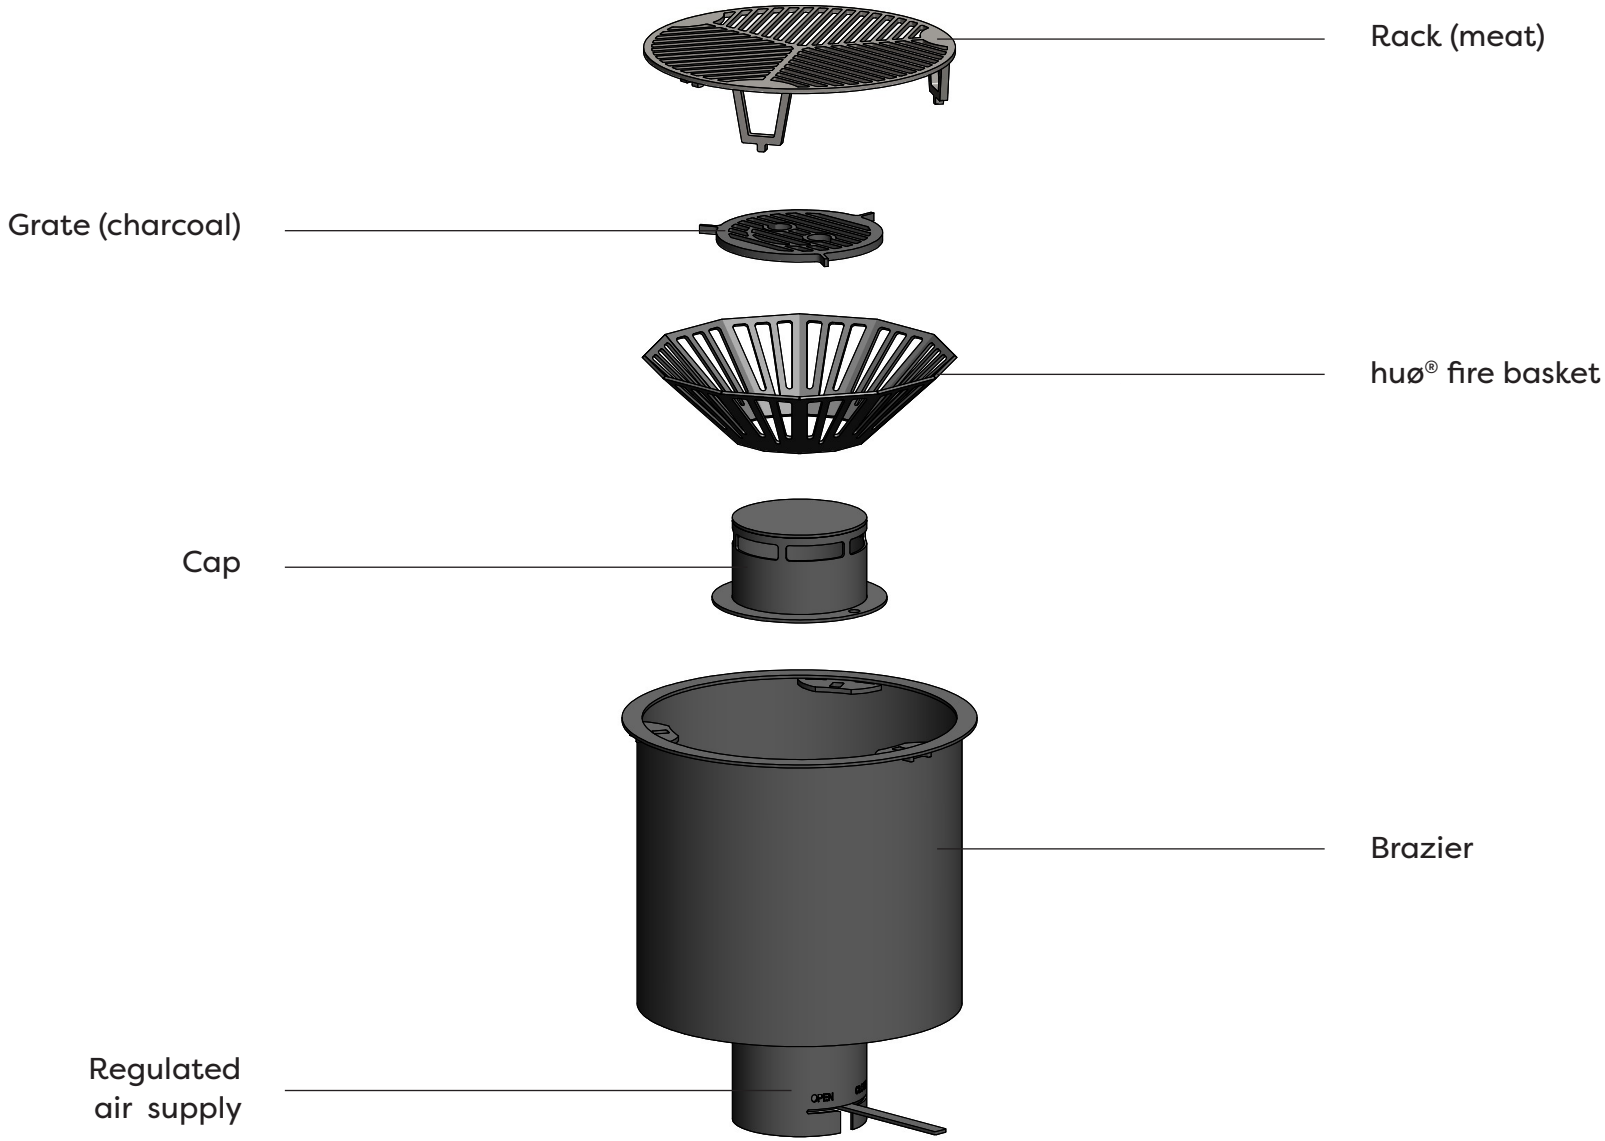
Ring through table legs

Metallised, powder-coated steel

Structure of your huø® foodsharing module and brazier



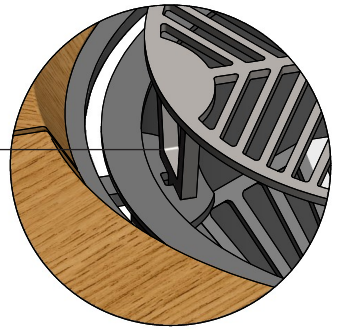
Structure of the brazier and huø® fire basket



Positioning the rack

For standard usage,
the rack sits in the brazier.

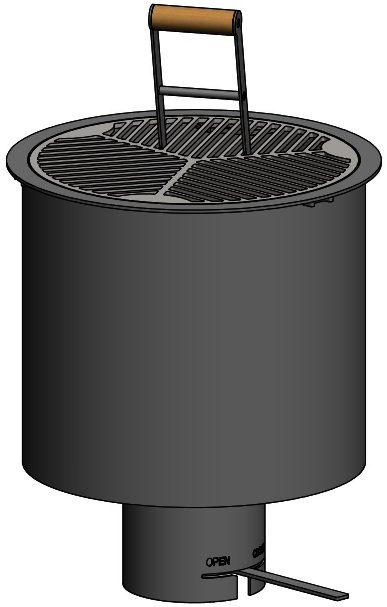
To help regulate the temperature during cooking, the rack can be positioned higher up by inserting the legs into the holes provided.



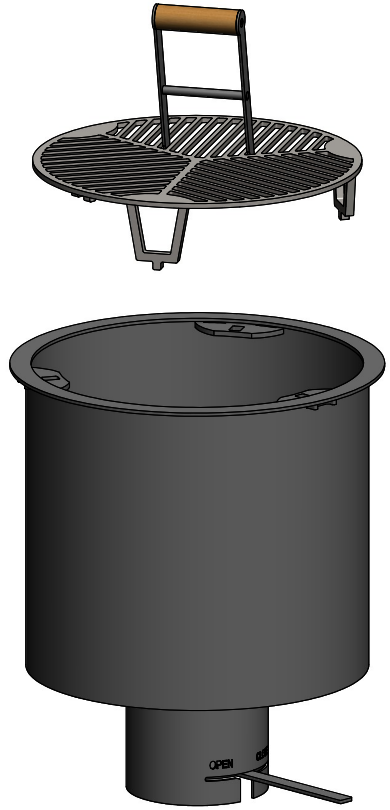
Adjusting the rack

Use the handle to move the rack when hot.

Step 1



Step 2



Step 3

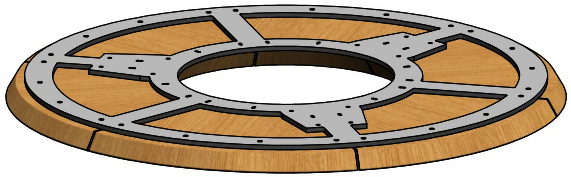
Assembling your huø®



Step 1

1. Spread a towel on the ground to protect the wood.
2. Place the table face-down on the ground.

Step 2

Screw the M10 bolts included (4 per leg) into the holes to attach the table legs. Repeat until all table legs are secure.

Assembling your huø®

Step 3

Lower the metal ring down between the table legs until it rests on the support.

Step 4

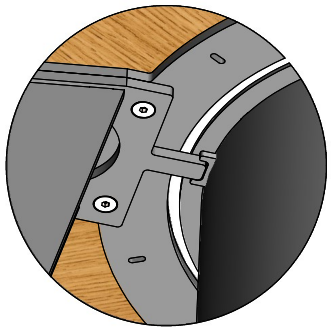
Secure the metal ring with the M8 bolts included (1 per table leg).

Assembling your huø®

Step 5

Turn the table upright and lower the brazier into its hole from above.

The brazier fits perfectly into the recesses in the three table supports.



Assembling your huø®

Step 6

Finally, fit the huø® cover plate into the table top.

All done! Your huø® foodsharing furniture is ready for use.
Enjoy! To dismantle your huø®, just follow these steps in reverse.
